

STYLE GUIDE

Please keep the distance of white or quiet space around the logo. No other typographic or graphic elements should be allowed to penetrate the white space. The height of the “K” in the logo mark help to represent the space buffer on all sides of the logo. When using the type only version of the logo, use the full color as often as possible. You may also use a 1-color if needed.

2-COLOR ON LIGHT/WHITE

2-COLOR REVERSED ON DARK/BLACK

BLACK LOGO ON LIGHT/WHITE

WHITE LOGO BRAND COLOR OR IMAGE

The brand identity colors consist of black and tan as the primary colors with secondary colors consisting of a wide range of muted earth tones. A selection is below. Using PMS colors is the best way earth tones. A selection is below. Using PMS colors is the best way to ensure consistency in printing. When PMS colors are unavailable, four-color process (CMYK) may be used. For web or mobile based applications, RGB colors should be used.

To maintain a cohesive brand look, it is important to use font discipline on all brand applications and communications. An example shows that all typography should in most instances be used as full left/right justified. The Amorie font should be in all caps in most cases.

AMNESTIA DISTRESSED

Amnesia Distressed is used as a distinctive headline font to add character, energy, and a handcrafted feel to key brand moments.

HEADLINE

ARCHER PRO

Archer Pro is used for subheadlines and supporting messaging, bringing a refined, approachable character that complements the primary headline style.

SUB-HEADLINE

Book, *Book Italic*
Bold, Bold Italic

ARVO

Arvo is the web-safe alternative to Archer Pro, keeping a consistent typographic character across digital applications.

SUB-HEADLINE

Regular, *Italic*
Bold, Bold Italic

BARLOW

Barlow is used as the primary typeface for main body copy, providing clear and approachable readability across brand communications.

MAIN BODY

Light, *Light Italic*
Regular, *Italic*
Medium, *Medium Italic*
Semibold, Semibold Italic
Bold, Bold Italic
ExtraBold, ExtraBold Italic

BARLOW CONDENSED

Barlow Condensed is used for supporting details and secondary information, essential but less prominent content.

Supporting Accent

Light, *Light Italic*
Regular, *Italic*
Medium, *Medium Italic*
Semibold, Semibold Italic
Bold, Bold Italic
ExtraBold, ExtraBold Italic

Below are several examples of how the typography should be treated. The menus are a good example. Color codes for different types of products are as follows:

SANDWICHES
BREAKFAST

SALADS
SOUPS & SIDES

BREADS
& PASTRIES

BEVERAGES
& SMOOTHIES

COMBOS
& KIDS

HEADLINE TREATMENT

Headlines can go vertical or horizontal using Amnesia Distressed typeface. Many treatments put it in a colored background to on white, but can also be treated as a colored headline on a light background.

SUB-HEADLINE TREATMENT

Sub-headlines use either Archer or Arvo font families should be used in all-caps.

MAIN BODY TREATMENT

Barlow is used in the main body treatment. There are a variety of weights that can be used, but a thicker weight should be used to highlight.

SUPPORTING ACCENT TREATMENT

Barlow Condensed will mainly be used for details like calorie counts, nutritional information or any information this is essential, but not prominent. It can be used in all-caps or standard title-case.
